Introducing the largest Plasma Display in the World

Panasonic

Set the 103" scene

The Panasonic 103" Plasma is the ultimate in large screen technology. With sleek design and unrivalled picture quality, it creates a unique solution for your corporate, retail or private environment.

Bring images to life, whether its watching a movie at home, launching a product or delivering a message with impact.

Shopping Centres Department Stores Supermarkets Home Cinema Public Transport Reception Areas Boardrooms Conference Suites Auditoria Stadiums Control Rooms Exhibitions Events The 103" has celebrated worldwide success with installations in high profile venues.

Fashion footage has featured in exclusive department stores; shopping centres have installed screens to communicate retailer information with shoppers, while bespoke solutions have been developed for the home cinema market to create a superb viewing experience.

The incredible technology behind the development of the screen means the viewer can appreciate the best in image reproduction, whatever the environment.

Plasma

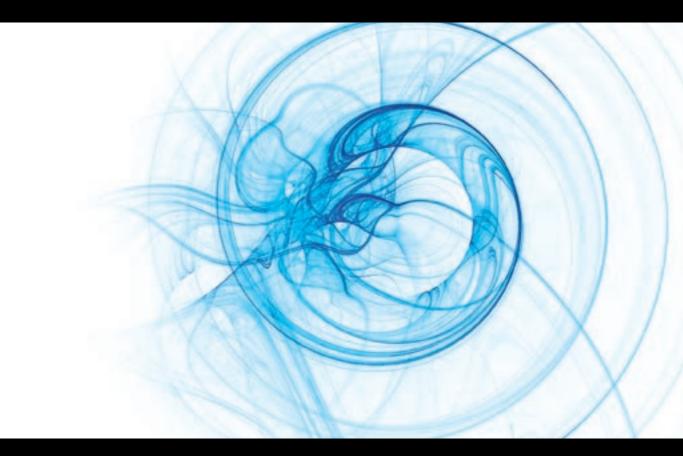

Panasonic PDP	LCD
60,000 Hours	60,000 Hours
60,000 Hours	Less than 60,000 Hours
60,000 Hours	Much less than 60,000 Hours

The Panasonic 103" screen allows the display of high resolution plasma images on a massive scale.

As a fully HD compliant display, the screens have twice as many pixels as "HD Ready" models, reproducing the entire colour range specified by the HDTV standard, it also offers superior tonal expression with crisper blacks.

It reproduces clear, brilliant images with exceptional detail and outstanding depth perception, providing smooth, sharp, motion images, true-to-life colour and the equivalent of 4,096 gradation steps.

In addition to the fixed input interface, the Panasonic plasma display has three interchangeable slots that let you add different combinations of optional terminal boards, allowing the flexibility to add digital or analogue capabilities to customise the system to your specific needs.

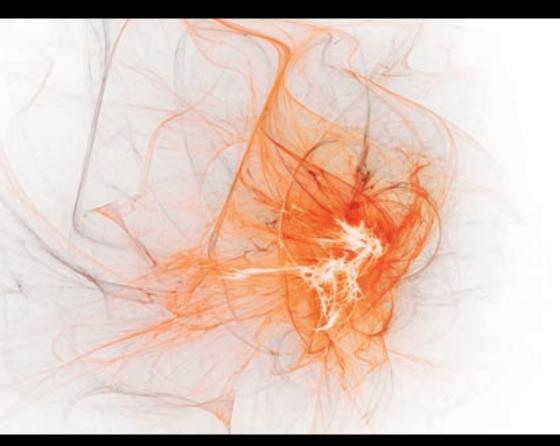

Model Name	Panas	sonic 103" Plasma Display
Display	Туре	103"
	Aspect ratio	16:9
	Contrast ratio	5.000:1
	Brightness (peak)	1,000 cd/m ²

Panasonic have appointed PSCo as the UK service and installation partner for the 103" Plasma. PSCo have unrivalled experience in transporting, lifting and supporting large plasma displays.

As a technically focussed company, PSCo can support every element of the product's application. Their team have extensive hands on experience, working with clients to ensure each installation runs smoothly, from site survey to project hand over.

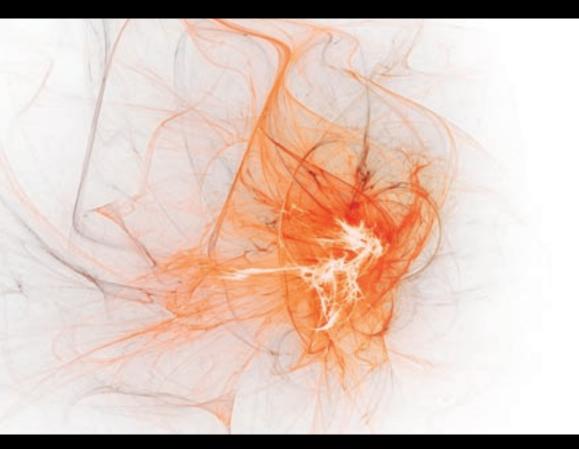

Many sales and hire installations have already been completed, all of which required dedicated logistical support from the PSCo team. PSCo have done many things from craning the screens through windows to closing major road systems to ensure the 103" plasmas were positioned as desired.

"World Class Technology" "World Class Service" "World Class Partners"

The Panasonic 103" Plasma Display represents the pinnacle of Matsushita Corporation's achievements to date. Introduced as one of three professional Full HD Plasma displays, this stunning screen truly unleashes the beauty of Full HD. All Panasonic plasma panels incorporate a host of leading-edge technologies to reproduce clear, brilliant images with exceptional detail, true Full HD resolution and outstanding depth perception.

Demand for larger screens and higher picture quality is increasing both in the Business and Consumer channels and is expected to further increase as HD Digital Media and Broadcasting services continue to expand throughout the world. Panasonic is fully committed to continuing to lead the market in both sales and innovation.

Panasonic UK Ltd. Willoughby Road Bracknell Berkshire RG12 8FP www.panasonic.co.uk/plasma-displays-home www.plasma-lcd-facts.co.uk

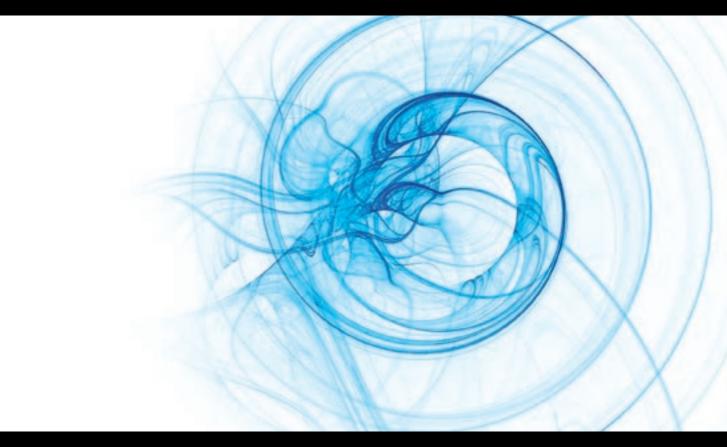

PSCo offer sales and hire of the latest visual technologies. Their portfolio of products include the most cutting edge screens on the market and the company partners with many of the world's leading AV manufacturers to distribute their flagship products.

PSCo's technical team offers a full support package for both permanent and temporary installations, supporting you every step of the way, as required, from advising on the specification of equipment through to assistance with final on-site commissioning.

Each of PSCo's client facing staff is CTS qualified and the company are one of only a handful of companies to hold gold CAVSP certification for technical excellence.
